## ***Wall mounted filter for welding fumes and light dust***

The Movex wall mounted weld-fume filter VF is a handy equipment for temporary worksites.

The wall mounted filter VF offers a high level of filtration and high extraction capacity.

Carbon filter cartridges for gas-mixed air are available on request.

Can be equipped with an extractor arm or be connected directly to a Spiro duct.

Our recommended extractor arm is the PR arm (in a 7- or 10 feet version). This extractor has a light-weight construction with two gassprings balancing its own weight.

The smooth inside of the extraction arm helps reduce the risk of ducts being blocked.

All necessary adjustments on the extractor arm can easily be taken care of from the outside.

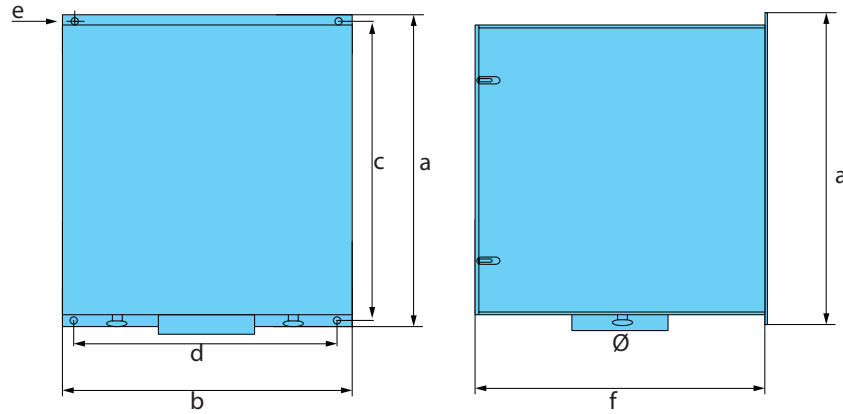

Extraction capacity: about 705 cfm with PR-arm Ø 6".

The product can be equipped with a fan.

N.B! The portable filter is not intended for extraction of liquids!

*The Movex range also includes fans, accessories and filters for extraction*

**LOCAL EXTRACTOR**  
**Pure advantage**

Product	a (inches)	b (inches)	c (inches)	d (inches)	e (inches)	f (inches)	Ø (inches)	Weight (lb)

VF 2000 / VF 3000

VF can be ordered with or without the PR extractor to be installed directly to a Spiro duct or other installation.

## VF 2000, VF 3000

### Hose

Properties

Non-inflammable, suitable for welding fumes and flue gases.

Temperature range

4°F to +190°F.

### Gas spring

Working temperature

+68°F

Temperature range

-40°F till +190°F

### Performance

Capacity

about 705 cfm with PR-arm Ø6"

### Filter

Filter standard  
Filter accessory  
Filter area

>98% acc. to DOP  
Carbon filter  
17 yards<sup>2</sup>

### Other

Surface treatment of sheet metal parts.

Powder coating

Weight

88 lb

### Filter house

Filter house in powder coated sheet metal

### Filter

Cartridge filter, 2-layer, flame resistant.

### Accessories

Carbon filter, PR 2000-160, PR 3000-160

### Delivery Design

Filter is delivered assembled.
